

IT Portfolio Management

MetaPhase Consulting Assists Federal Chief Information Offices Optimize Investments through IT Portfolio Management Solutions

IT Governance | Enterprise Architecture | Technology Business Management | Capital Planning & Investment Control

MetaPhase has led Departmental, Bureau, and Program-level IT Portfolio Management Support for Federal IT organizations where we have positioned our Federal IT customers to achieve its mission and Enterprise IT strategic goals to enable Digital Transformation. We consider the critical dimensions of People, Process, Technology and Data to support the development of IT Strategy, Strategic Goals, Objectives and strategic key performance indicators to measure progress.

MetaPhase's seasoned ITPfM experts translate IT and Department strategic plans into Enterprise Roadmaps for planning and executing strategic initiatives to modernize our clients' IT portfolios. Our IT strategic planning support can include IT governance maturity and operational support to establish the appropriate oversight and responsibilities to manage our client's IT portfolio.

We leverage technology solutions to streamline Technology Business Management and Capital Planning & Investment Control processes through automation, business process reengineering, and utilizing system of record data as a strategic asset. We tailor solutions to specific client needs which has included use of ServiceNow, Proven Optics, MS Power Platform (PowerBI, Power Automate), and GSA Folio to manage over \$5 Billion in Federal IT spending.
