# DIGITAL SERVICES

Digital Transformation | IT Modernization

Legacy technology has become an anchor, slowing agencies down in an age where change is happening faster and faster. We help agencies shed the weight of legacy systems and processes and transform their IT portfolio into a leading edge, dynamic, scalable and secure set of platforms that can support the most complex of government processes.

OUR DIGITAL SERVICES CAPABILITIES

Cloud Enablement

We strategically assess and govern cloud transitions, while tactically building and supporting smart-scaling cloud services to maximize operational budgets.

DevSecOps

We streamline modern cross-cloud architecture development using automated CI/CD pipelines, shortening the transition from concept to production with a focus on quality and security.

User Experience

We prioritize user-centered digital services, emphasizing ease of use, accessibility, and engagement. Our approach incorporates Design Thinking and UX methodologies to ensure seamless adoption through iterative feedback and tailored designs.

Agile Development

We apply Agile principles to all workstreams, thereby increasing flexibility and customer focus. Our Agile methodology allows us to rapidly provide functionality in a transparent way that incorporates stakeholder feedback and adapts to the evolving needs of federal agencies.

Cybersecurity

We implement comprehensive cybersecurity services for cloud platforms. This includes ISSO Support, ATO Support, CDM, and Zero Trust Implementation - ensuring compliance with federal Risk Management Framework (RMF) standards.

SAMPLE PAST PERFORMANCES

FEMA Digital Workflows

- $157M BPA where MetaPhase provides cloud advisory and development on digital platforms (e.g. ServiceNow) for the entire FEMA Enterprise

Commerce/BEA EITS

- Built and manage a grouping of 4 mission-essential systems that are the cornerstone of BEA's national economic statistics including the National GDP.
- Led migration of .Net applications to the Azure Cloud including IaaS, PaaS, and SaaS implementations

STATE TALENTMAP

- Custom Open Source Agile Software Development in the Cloud
- DevSecOps: Continuous Integration and Delivery using CircleCI
- Human Centered UI/UX: Intuitive Design, Clean Modern Ascetics, Efficient Information Architecture
- Technologies: Node.js, React, Python, Django, PostgreSQL CircleCI, GitHub

ABOUT METAPHASE CONSULTING

MetaPhase Consulting is an 8(a) certified IT and Management consulting firm located in the Washington, D.C. metro area. We operate at the intersection of business and IT -- creating, deploying, and supporting practical solutions that serve as a force multiplier for the government. MetaPhase provides proven, highly effective consultants to support the planning, development, implementation, and change management associated with Federal Programs.
